RE: Five Points Drainage Improvements – Construction Phase

Dear Resident/Business Owner:

The purpose of this letter is to inform you that The City of Raleigh will soon begin Phase II of the Five Points Drainage Improvements Project, and that, consequently, you may be affected by the traffic detours to be installed in the surrounding area.

The City has awarded the construction contract to Pipeline Utilities, Inc. Work is currently anticipated to begin in early June 2015 and is scheduled to be completed within 120 days. Construction will mainly take place at the intersection of Fairview Rd./Myrtle Ave./Reid St. and will directly impact all traffic in the vicinity, as the intersection will have to be completely closed to all through traffic for 45 calendar days at some point during the 120 day construction schedule. The road/intersection closure dates have not currently been set by the City. Residents who live in close proximity to the intersection will be given additional notification regarding road closure dates once they have been established. In addition, this information will be posted to the City's website and communicated to local media outlets for dissemination.

A copy of this letter, proposed traffic detour plan, and road closure dates (once determined) will be posted to the City's website at www.raleighnc.gov, search words "Five Points Drainage Improvements".

Private utility work may be completed at or near the above intersection prior to the actual start of construction.

Should you have any questions or concerns, please do not hesitate to contact me at (919) 996-4001 or at gilles.bellot@raleighnc.gov. Thank you in advance for your patience and understanding as we work to complete this critical project.

Sincerely,

Gilles Bellot, PE
